www.proformancemfg.com

Proformance Manufacturing, Inc. is a contract manufacturer of precision metal components. We specialize in deep drawn metal parts, stamped metal parts and CNC precision turned metal parts. We have extensive experience in all alloys with specific experience in glass sealing and nickel alloys. Owned and operated since 1987 by principles with over 55 years of hands on machining experience.

Proformance Manufacturing provides precision metal component capabilities including: Deep drawn stampings; progressive die stampings; precision metal stampings; CNC machining (turning); secondary operations to complete requirements; class A tool and die shop for all tooling needs; as well as approved and certified sources for process finishing.

Proformance Manufacturing works with all standard metal alloys and specializes in Kovar (iron nickel cobalt), 42% nickel iron, nickel alloys, monel, molybdenum, OHFC copper and cupronickel to name a few.

Industries served: aerospace; automotive; electronics; lighting; hardware; medical; oil and gas industrial; instrumentation; laser systems, optical sealing and thermal management to name a few.

Customer list (partial) includes: Am-safe Aviation; CoorsTek; Coherent Laser Group; Esterline Power Systems (Leach Aircraft); Jennings Technology and Newport-Spectra Physics Laser as a small list.

Certifications:

ISO 9001:2008 : No. A3152US

**Minority-Owned Business:
Self-Certified**
